

PolyBreaker™

Caliber	Weight	Type	Colors	Pack options
0.50 cal.	1.30 g	Solid	White	Jar / Bulk

PolyBreaker is a projectile made of smoothly-polished hi-density polymer. It develops a medium kinetic energy, a better impact effect than rubber and ensures long range shots (over 20 meters)

- **Used for:** defense, training, sports shooting
- **Formula:** solid polymer
- **Operation temperatures:** any
- **Features:** hard impact effect, long range, reusable, waterproof
- **Colors available:** white
- **Storage conditions:** store away from direct light
