

Rubber 98

Caliber	Weight	Type	Colors	Pack options
0.50 cal.	1.20 g	Solid	Black	Jar

Rubber 98 is a traditional less lethal projectile made of high-density rubber. Its hardness (098 HA) ensure good kinetic energy and impact effect. Great for long range shots (over 20 meters)

- **Used for:** defense, training, sports shooting
- **Formula:** solid rubber 098 HA
- **Operation temperatures:** any
- **Features:** long range, reusable, waterproof
- **Colors available:** black
- **Storage conditions:** store away from direct light, avoid extreme temperatures
